

transmitting material information for specifying music via [the] a predetermined communication circuit; receiving [the] a music list matching to the material information via the predetermined communication circuit; and

specifying [the] a desired music selection from [among] the music list and transmitting the information showing the specified desired music selection via the predetermined communication circuit.

210
--73. (Amended) The music specification method in utilizing the communication circuit according to claim 72, [wherein]

comprising the further steps of:

memorizing the information showing the music specified [is memorized] in [the predetermined] a memory [means,]; and

transmitting the information showing the specified music [is transmitted] when [the] a desired time comes.--

REMARKS

Claims 1-73 remain in the application with claims 1, 3-8, 11-14, 21, 22, 24, 26, 29-31, 33, 35-66, and 68-73 having been amended hereby.

As will be noted from the Declaration, Applicants are citizens and residents of Japan and this application originated there.

Accordingly, the amendments made to the specification are provided to place the application in idiomatic English, and the claims are amended to place them in better condition for examination.

An early and favorable examination on the merits is earnestly solicited.

Respectfully submitted,

COOPER & DUNHAM LLP
